

RETIRED Adult Education Component

Beginning in the 2016-2017 school year, the funding model for Adult Education is now 100% grant funded and not based on pupil FTE counts. As a result, the Adult Education Component and corresponding characteristics have been retired and are no longer being collected.

Report data in the Adult Education Component related to a specific adult education program in which a student participates. Submit one Adult Education Component for each distinct program. Report a participant in a maximum of three programs per adult education count period. Do not report the student with more than a total of 1.00 FTE per count period, regardless of how many programs (one, two or three) you have reported.

Component Validation Rules

These rules apply to the Adult Education Component as a whole. Rules related to specific characteristics within this component are detailed in the Characteristic Detail portion of this section.

Grade or Setting Dependency

When you are reporting a student record that contains the Adult Education Component, the Grade or Setting characteristic in the School Demographics Component of the record must contain Grade or Setting code "20." Submitting any other code in this characteristic when the Adult Education Component is included in the record will result in an error. Likewise, when you submit a record with code "20" in Grade or Setting you must also include at least one Adult Education Component.

Maximum Occurrence

For each adult education count period (July, September, February and/or April), you may submit a maximum of three occurrences of the Adult Education Component. The system will generate a record-level error if you submit more than three components for any one adult education count period.
